# rain barrels

*you'll love in*

Beautifully designed barrel gives you the classic look of wood with the ease and durability of plastic. This rain barrel is a lovely addition to your home. Save money and help conserve water with this rain barrel made of rotomolded plastic which is able to withstand harsh temperature changes and won't chip, fade or crack. Included is a high quality taps that adds to the elegance of the rain barrel. Collect water for your grass, vegetable and flower gardens as well as water for washing your car. Keep your lawn and car looking great while also helping the environment.

To ensure optimal water quality, install filters in downpipe. Choose the filter that has an overflow stop, to avoid overflow in the tank and that water simply flows back into the downpipe.

**DRAIN TAP:** water extraction is made extremely convenient by the plastic or metal tap. Screw it into the tank's standard thread connection without the need for drilling.

You can use standard GARDENA or any other extraction options to connect hose or other accessories with the tank. The hose is either screwed into the tank's convenient connection or mounted onto the tank using a drill and a seal.

**Families of products:** same design and different size

**Weather proof** and UV rays resistant

**Ecological:** non toxic and recyclable

**Very light** and easy to handle

Direct shipments to customer or clients.

**2 YEARS WARRANTY** Extreme durability

**Shock resistant**

Low lead-times and warehouse storage.

More than 45 years experience of rotomoulding.

Save the planet – return any ROTO product after use, we offer you free recycling and discount for buying the new ROTO products

Collecting rainwater just makes sense: it conserves a precious resource and reduces water bills. Plus, plants love chlorine-free rainwater.

Stand for rain planter Samba

The Samba rain barrel reinvents how you harvest rain water. This 120 L modern design is sturdy and one of the most eye-catching rain barrels on the market.

The most captivating feature is its appearance which emulates the rough texture of a tree trunk. With a deep welled top, you can plant an array of floral arrangements or even a small herb or vegetable garden.

21

Beautiful wall fountain with washbasin in nostalgic design. High quality made of polyethylene, this model convinces against offers made of cast iron, which often start to rust after a short time.

You can install with the water tap, which makes the connection easy to a water pipe or connecting hose. On the bottom of the sink is pre-prepared place for the drain which can optionally be supplemented with a drainage set.

# GARDEN BASIN SUN

	Colour	C.	EAN	[mm]	[kg]	PCS/pallet
Garden basin Sun (PE part)	g	2274085610	3831116131893	380 x 650	2,5	36
